

I'm not robot

Continue

It's a free online image maker that lets you add custom text with size to images. It works in HTML5 canvas, so your images are created instantly on your own device. Most often, people use a generator to add text signatures to installed memes, so technically it's more of a meme signer than a meme manufacturer. However, you can also upload your own images as templates. How do I set up a meme? You can move and resize text boxes by dragging them. If you're using a mobile device, you might need to check Enable drag and drop in advanced settings first. You can adjust the font color and path color next to where you type. You can further customize the font under Advanced options, and add additional text boxes. Imgflip supports all Web fonts and Windows/Mac fonts, including bold and highlighted, if installed on your device. Any other font on your device can also be used. Note that Android and other mobile operating systems may support fewer fonts unless you install them yourself. You can insert popular or custom stickers and other images including scumbag hats, sunglasses, speech bubbles and more. Opacity and size are supported. You can rotate, flip, and crop all downloaded templates. You can draw, structure or draw on memes using the panel directly above the meme preview image. You can create meme chains of multiple images stacked vertically by adding new images with the option below the current image. Can I use a generator more than just memes? So! Meme Generator is a flexible tool for many purposes. By uploading your own images and using all the settings, you can design a lot of creative work, including posters, banners, advertisements and other custom graphics. Why do I have imgflip.com watermark on my imgflip.com? The Imgflip watermark helps other people find where the meme was created so they can also make memes! However, if you really want, you can remove our watermark from all the images you create, as well as remove your ads and supercharge your image creation abilities using Imgflip Pro or Imgflip Pro Basic. Can I do animated or videomemes? So! Animated meme templates will appear when searching in the Meme Generator above (try the parrot party). If you don't find the right meme, check out all the GIF templates or download and save your own animated template with GIF Maker. Do you have a weird AI that can write memes for me? Funny you ask. Why yes, we do. Here you go: imgflip.com/ai-meme (warning, may contain vulgarity) This is a free online image manufacturer that allows you to add custom text with a significant size to It works in HTML5 canvas, so your images are created instantly on your own device.
