By the time the date, stats are still being investigated and could have effects in future patches that could change the game. You may want to consider some of these routes: Swordsman: Pure Str. 5 str. 1 Agi. 4Str. 2 Dex Archer: Pure Dex, 5dex. 1agi. 4dex. 2str. Magician: Pure Int. 5int. 1sta. 4int. 2sta. You may ask why build clean or for this ratio. In Idle Poring, there are other things more than stats, such as Gem or Pets, that can affect your attributes and stats. You can draw full dex on the archer, and you can also use Str/agi/jewels to move away from the additional other shutdowns you want to build against your character. In addition, pets can increase your ATK or HP, etc., depending on which pets you use. There is no right or wrong to build your character, but you need to know what you put the stats in. Note that you can get a reset of attributes in the game, (small deviruchi contract) So let's look at the stat table for each class: Swordsman STR: Atk+4 HP+2 SP+2 AGI: HP+12 Attack Speed +2 Eva+2 STA: HP+16 DEF+2 Mdef+2 INT: HP+8 SP++ 8 Def+2 Mdef+2 DEX: HP+8 SP+8 Def+8 Def+5 2 Mdef+2 AGI: HP+12 Attack Speed +2 Eva+2 STA: HP+16 DEF+2 Mdef+2 INT: Mat+4 HP+2 SP+2 DEX: HP+8 SP+8 Def+2 Mdef+2 LUK: HP+10 Hit+2 Crit+2 Te on city+2 Pet-loving pets are getting the way they collect parts via Maps call raids (City → Map) or Mall (City → Store → Pet) Each Pet has different passive stats that improve your character. It is effective to focus on one by one pet. To do this, go to The Five → Grimoire → View (Designated Pet) → Source. If pet is accessible via Battle → Map, you will get To Obtain and you can rest the map (up to 3 free trials per day). If you haven't unlocked the map yet, the button will be filled (locked). If the pet is available through the store, the store, the store. You will have to take a → with city → Store and Pet. Here are some pets you might want to get on the go (will be updated) Archer & Swordsman: D eniro, Steam Goblin, Angeling Magician: Jakk, Steam Goblin, Angeling Getting honor honor is acquired by sending gifts to friends and PvP-ing: There are 3 Types of gifts You can add random friends via City → Friend → Add tab. When you careess people you get 40 points of honor you get 10 Bond points with this friend. You can only stroke 6 people a day under my tracks, you can send a Greeting or Fancy Gift. Each task has an icon that represents its reward and adds activity points. When you reach 100 points of activity, you will get the biggest prize of the day. Pair with DEF/MDEF pets and Ghostring for best results. This can make some ridiculously low power clear (compared to the typical Berserk &gt; Sleep &gt; Double &gt; stunning combo). PVP Strategy Always run your pvp earlier when you first get in • PVP opponents will then be around your power ratings. • Clear the first 2 when you feel confident to beat them • Those behind them will become around your strength or higher • Level and get your power rating a little to your strength • Continue the steps until you beat all 5 in 1 ticket to learn skills level 2nd job & rebirth information here on the new page (so it doesn't become too dense here!)
